Brief Report about event	Pledge to celebrate environment friendly and pollution free Diwali
	(Date: 03, November)
	Sworn like this.
	I take an oath today that I will celebrate Diwali free of firecrackers with the aim of making the coming Diwali environment-friendly and pollution- free, on this occasion I will not do any kind of firecrackers and fireworks that cause environmental pollution, I will do my best to create awareness in the society, I will do my best I will explain the importance of this to friends, family and neighbors. Also, the money saved from the crackers I will spend on buying books or saving the environment!
	!Jai Hind Jai Bharat!
	The pledge to celebrate environment friendly and pollution free Diwali in Vidarbha Shikshan Prasarak Mandal's G.S. Science, Arts and Commerce College, Khamgaon was taken in the presence of RSS volunteers, NCC Cadets and students of the college.
	Changing the mindset of today's youth and creating public awareness is the need of the hour. The concept that Diwali is a festival of lights and meeting of brothers and sisters should be

## G S Science, Arts and Commerce College, Khamgaon

	inculcated in the society. If people's mentality
	changes, one day Diwali will be truly firecracker-
	free and only today's youth can do it, said NSS
	program officer Dr. Hanumant Bhosle expressed while introducing on this occasion.
	while introducing on this occasion.
	Principal of the college Dr. Dhannajay Talwankar
	said that due to the chemicals used in firecrackers, many types of diseases are caused to young and
	old, and due to the bursting of firecrackers, toxic
	gases like carbon monoxide are spread in the
	atmosphere, the ozone layer is thin and the
	atmosphere is hot, and it is not affordable for a
	city like Khamgaon where we live. Air and environment pollution increases respiratory
	diseases. Loud crackers cause hearing loss.
	Therefore, today's youth generation challenged
	the students to target the ill effects of this and to
	remove the distortion in our culture and celebrate
	Diwali without crackers.
	Dr. Ashok Padghan while sharing his experience
	said that since last five years we have been
	celebrating Diwali by taking all the children of the
	house without spending on firecrackers and
	distributing winter clothes to the roaring ones. Dr.
	R.P. Sonekar Head of the Department of Physics is
	of the opinion that participating in such an activity
	will help to maintain the balance of the
	environment said while expressing his thoughts
	here. Lt. Dr. Sanjay Kapse, Prof. Dr. Sanjay
	Warade, Prof. Nanasaheb Kutemate, Prof. Sanjay
	Hargunani, Mr. Kishore Deshmukh, Gajanan
	Hiwale, volunteers of National Service Scheme,
	National Cadets, student Corps, professors and
	The employees attended spontaneously.
