

## G S Science, Arts and Commerce College, Khamgaon

Title of the Activity	<b>One Day workshop on Front End Development</b>
Organizing Department	Computer Science and Application
Date	25 <sup>th</sup> November, 2022.
Venue	Offline
Guest/ Resource Persons	In collaboration with GO Code Academics, Buldana
No of Beneficiaries	Students 49
Brief Report about event	<p>About this course:-  <b>A front-end developer</b> creates websites and applications using web languages such as HTML, CSS, and JavaScript that allow users to access and interact with the site or app. When you visit a website, the design elements you see were created by a front-end developer.</p> <p><b>What does a front-end developer do?</b></p> <p>Front-end developers create user interfaces (UI). UI is the graphical layout of an application that determines what each part of a site or application does and how it will look. "I've always found crafting polished user interactions that surprise and delight users to be the most rewarding and engaging task," says Mari Batilando, a software engineer at <a href="#">Meta</a>. "In order to do this, you need to both have an eye for detail and a rock-solid understanding of the platform."</p> <p><b>Front-end developer job description</b></p> <p>If someone wanted to build a website, they might hire a front-end developer to create the site's layout. The front-end developer determines where to place images, what the navigation should look like, and how to present the site. Much of their work involves ensuring the appearance and layout of the site or application is easy to navigate and intuitive for the user.</p>

G.S.Science, Arts & Commerce College, Khamgaon  
 Department of Computer Science  
 "Workshop on Front-End Development"

Date: 25-11-2022

Time: 2pm to 5 pm
