About the theme of the conference:

Khamgaon is often called "Silver City" because it has a renowned silver market, with pure form of silver products available. It was a major trade center for cotton during the British Raj. International Day for the Preservation of the Ozone Layer 2022 is observed on 16th September every year. In 1994, the United Nations General Assembly proclaimed 16 September the International Day for the Preservation of the Ozone Layer, commemorating the date of the signing, in 1987, of the Montreal Protocol on Substances that Deplete the Ozone Layer (resolution 49/114).

World Ozone Day is observed on September 16, every year. It is celebrated to spread awareness among people about the depletion of the Ozone Layer and search for possible solutions to preserve it. On this day, people from all over the world are expected to join the Montreal protocol to join the talks and seminars.

About the G.S. College, Khamgaon

With Tamsa Maa Jyotirgamaya as its guiding principle, the Vidarbha Sikhshan Prasarak Mandal, Khamgaon, founded the Govindram Seksariya Science College in 1947 with donation given by Late Seth Govindram Seksaria of Indore in order to cultivate the values of modesty, brotherhood, devotion, courage, patriotism, discipline, sacrifice, patience and determination in the youth of the post-independence era. The late Advocate Raobahadur Anant Sakharam Athalye of Akola was the first president of the VSP Mandal while there were some prominent citizens of Khamgaon among the founder members. The VSP Mandal is registered under B.P.T. Act, 1950 with registration No. F-1 Buldana. The college has its own spacious building with total campus area of 97 acres. As s major milestones, it is honored by ISO 9001-2015 certification and A grade NAAC. The institute provides the education from UG to Ph.D. level. Has swimming pool of 10 lanes with international standards. **The institute is celebrating the silver jubilee.**

About the Nagarjuna Science and Environment Forum (N-SEF):

India faces critical challenges as a nation in its march towards a welfare state. Considering the nature of the challenges which are so unique, only rapid strides in the sector of science, technology and the environment in resonance with India's heritage can meet those challenges. In this context in continuation with our affiliated body viz. Vijnanabharati, Nagarjuna Science and Environment Forum (N-SEF) is a science movement with swadeshi spirit has a greater role to play. The foundation principle of N-SEF is made

*As a vibrant movement for the development of Swadeshi Sciences

*As a dynamic Science Movement with a Swadeshi Spirit, interlinking traditional and modern sciences on the one hand, and natural and spiritual sciences on the other hand

*As a Swadeshi Movement with modern sciences adapted to national needs.

About The Nagarjuna

Nagarjuna was an Indian alchemist. Chinese and Tibetan literature says he born in Vaideha desh (Vidarbha) at the start of the tenth century and then migrated to nearby Satavahana dynasty.

Nagarjuna was an Indian metallurgist and alchemist. Chinese and Tibetan literature says he born in Vaideha desh (Vidarbha) at the start of the tenth century and then migrated to nearby Satavahana dynasty. There are evidences found of his experimental laboratory in village Nagalwadi in Maharashtra state. According to some evidences he was working on immortality and knew the extraction of iron and mercury.

A 1984 study of manuscripts and printed editions connected with the alchemist Nagarjuna found that his name is associated with a work titled Rasendramaṅgala and Rasaratnākara. Works ascribed in manuscripts to an author called Nagārjuna include Jivasutra, Rasavaisesikasūtra, Yogasataka, Kakṣapūṭa and Yogaratnamala.
